

## Product Documentation

### System requirements: pCon.creator

#### Minimum requirements for pCon.creator 2.18

Processor:	x86 or x86-64 Pentium IV (class 2 GHz) or equivalent AMD processor
System memory:	2 GB
Operating system:	Microsoft Windows 10
Available disc space:	1 GB
Graphics board:	For graphical data creation, the graphic board requirements of the used CAD-System and pCon.planner should be taken into account.
Screen resolution:	1280 x 1024 pixels
Microsoft Office	Microsoft Office 2013 Professional SP1 (Access) 32bit
Microsoft .NET Framework	4.7.2
CAD-System	Autodesk® AutoCAD® 2018 or pCon.planner PRO 8.5
USB-Port	

#### Notes

The system requirements which are described above represent an example of a minimal supported system environment. Generally, the following versions of required components are supported.

Please note that these components may have got their own individual system requirements.

## Supported operating systems

---

Microsoft Windows 10

---

Microsoft Windows 11

---

## Supported Microsoft Office versions<sup>1,2,3</sup>

---

Microsoft Office 2021 Professional (Access) 32bit

---

Microsoft Office 2019 Professional (Access) 32bit

---

Microsoft Office 2016 Professional (Access) 32bit

---

Microsoft Office 2013 Professional SP1 (Access) 32bit

---

## Notes

The Microsoft Office Desktop versions – mentioned above – from the Microsoft Office 365 subscriptions are supported, too<sup>4</sup>.

It has to be considered that different components from different Microsoft Office versions should not be installed in parallel<sup>5</sup>.

---

<sup>1</sup> Microsoft Office 64bit is not supported. The 32bit version should be used on 64bit operating systems.

<sup>2</sup> The Microsoft Access Runtime version is not supported.

<sup>3</sup> Using several functions of pCon.creator, the installation of Microsoft Excel is required, too. Microsoft Excel and Access from the same Office Suite Version should be installed.

<sup>4</sup> Using pCon.creator, a locally installed Microsoft Office Access Desktop version is necessary. For this reasons, Office 365 subscription plans, which include only web or mobile Office Apps, are not supported.

<sup>5</sup> Internal problems or conflicts of internal parts of office components can occur when installing different Microsoft Office components in parallel. A result of such Office internal problems may be that pCon.creator does not start. Especially installing Office from an Office 365 subscription already installed Office versions e.g. pre-installed test versions should be removed first.

## Supported CAD systems<sup>6,7</sup>

---

pCon.planner PRO 8.6

---

pCon.planner PRO 8.5

---

Autodesk® AutoCAD® 2022 64bit

---

Autodesk® AutoCAD® 2021 64bit

---

Autodesk® AutoCAD® 2020 64bit

---

Autodesk® AutoCAD® 2019 64bit

---

Autodesk® AutoCAD® 2018 64bit

---

---

<sup>6</sup> The Autodesk® AutoCAD® LT Versions are not supported. Functionality of LT versions is limited. E.g. the restricted LT versions do not contain API interfaces for inter process communication and automation.

<sup>7</sup> Since 32bit versions of the Autodesk® AutoCAD® software are not supported on 64bit operating systems.
